

Vembu Cloud Backup for Endpoints

Vembu offers Continuous Data Protection for the file & folders from the Windows & Mac file Endpoints directly to Vembu Cloud. During the incremental backup schedule, only the modified files/folders will be backed up. All your data is encrypted using an AES-256 bit encryption algorithm during the transfer and at the vembu cloud storage. You can restore the backup data from anywhere at any time.

Customer Quotes

"We have used Vembu product for years, starting with its hybrid-cloud backup solutions and like it for its ease to deploy, ease to manage, ease to invoicing, and broad set of scalable offerings from simple file backup up to BCP product lines."

-Lee Wong, Manager of Information Technology at The Mackie Group

Supported Applications

- MS Exchange Server 2003 & above
- MS Exchange Server DAG 2010 & above
- MS SQL Server 2000 & above
- MS Sharepoint Server 2003 (WSS2.0) & above
- MS Outlook 2007 & above
- MySQL 5.0 & above

Key Features

Files/Folders Backup: Backup individual files & folders in your Windows or Mac laptops/ desktops to the Vembu Cloud.

Flexible Scheduling options: Vembu offers Continuous Data Protection to backup files/folders starting from Minutes to Hourly/Daily/Weekly basis.

Interruption-free Backup: Vembu will intelligently pick up the backup exactly from where it left off after an interruption.

Restore anywhere: Instantly restore the entire backup files/folders to the original location or an alternate location.

Bandwidth Throttling : This feature allows you to throttle the speed of the backup data transfer for a selected time, and helps in reducing the network traffic.

Deleted File Retention: Retain any number of deleted files/folders based on its version count or the number of versions created within a time frame.

In-built Encryption: The backup data is encrypted using the AES-256 bit algorithm to protect the data both in flight and at rest.

Backup Schedule Window: Set the time frame to suspend your backups for a certain period, once the schedule limit ends, the backups will resume automatically.

Email Notification: Enable email notifications to get alerts on the actual status of the configured backups (like success, failure, missed, etc.)

Getting Started

Download Vembu BDR Suite and Start the 30 days free trial version. After the trial period, you can either opt to purchase the product or continue using the free edition.
